## MAKE PAYMENTS EASIER

**Tax Installment Payment Plan (TIPP)** - monthly property tax payments, automatically withdrawn (January to December) for your convenience, rather than a single annual payment. Deadline to sign up for 2021 Property Taxes is December 15, 2020.

**Pre-Authorization Plan (PAP)** - quarterly water bill payments, automatically withdrawn, equal to the balance due on your quarterly utilities invoice. Deadline to sign up is two weeks prior to the next due date.

**Online Utility Bill Services** - receive your quarterly water bill by email and view your statement online.

To learn more and sign up for the above payment plans and services, visit [Steinbach.ca](http://Steinbach.ca).

## DWELLING SAFETY STANDARDS BY-LAW

The City of Steinbach is in the process of adopting a Dwelling Safety Standards By-Law. The new by-law will address minimum obligations property owners must provide within their residential dwellings. Minimum safety measures such as a proper egress, smoke alarms, and carbon monoxide alarms will be required to be installed in all primary and secondary dwelling units. The by-law is expected to be finalized by early 2021.

Learn more and find out if your home meets minimum safety standards by visiting [Steinbach.ca](http://Steinbach.ca).

## PREPARING FOR SNOW CLEARING

No one wants to talk about the “S” word (snow), but winter is on its way and residents are responsible for ensuring boulevards, sidewalks and curbs are clear of objects and obstacles for snow clearing equipment. Cars should not be parked on streets after snowfalls. Larger snow windrows (pile of snow that is left at the bottom of

a driveway from the plow) will be cleared whenever possible. Please note that the ridge of snow left across driveways resulting from the clearing of sidewalks is not cleared by City crews. The City appreciates your cooperation!

## COMPOST ACCEPTED YEAR ROUND

The Community Compost Depot Program is over for the season, however the public is encouraged to still bring their organic waste to the compost pile at the Steinbach Landfill year-round, free of charge.

## FLUSH AND FORGET? NOT REALLY

Although convenient, “flushable” wipes should not actually be flushed. Wipes do not fully disperse and disintegrate in water like toilet paper. Instead, they cause costly clogs and repairs throughout the wastewater treatment process.

Wipes may flush away in your toilet easily, but remember this is only the first part of their journey through the City’s sewer system. Through many kilometres of City pipes, valves, and pumps, wipes easily build up and create blockages for City staff to locate and resolve.

So, when it comes to flushing, keep it to just toilet paper. Everything else should be disposed of in your garbage.
